4. Iogear Wallet Drive Blue. Four gigabytes of memory are packed into this slim device, which is smaller than a business card and not much thicker. Carry it with you in your wallet and have your essential business-related data, or even more fun, your photos and music, at hand without using up your laptop's memory. No external power source is needed to get the Wallet Drive up and running; just hook it up to a computer with a 1.1/2.0 port. It supports Windows XP, Vista, Mac OS X 10.3 or above and Linux 2.4 or above. \$69.95; www.iogear.com.
