### **IOGEAR'S 2.4GHZ WIRELESS COMPACT KEYBOARD IS THE IDEAL SOLUTION FOR THE DIGITAL LIVING ROOM**

**From the comfort of the couch, HTPC fans can navigate PC-to-TV content, interact with game consoles and access online content with the touch of a button.**

**Las Vegas, NV – International CES 2011 – January 6-9 – Central Hall #13427 –** As any Home Theater PC fan knows, inputting commands via a wireless remote on your TV is a hassle, yet giving up space in your living room to a wired keyboard is not a welcome option either. The new [IOGEAR™](#) 2.4GHz Wireless Compact Keyboard (GKM681R) now gives you the power of wireless connectivity that can also be stashed away in a side table drawer when not in use.

The 10-inch keyboard with built-in optical trackball, left/right buttons and scroll wheel allows you to work and play up to 33 feet away from your Home Theater PC, Media Server, computer or laptop, even the latest game consoles. The GKM681R keyboard is a convenient way to drive the PC to TV content you want, when and how you want it. Access and manage videos, photos, movies and online content on a TV screen from the comfort of your favorite seat in the house.

With 16 multimedia hotkeys (shortcuts) at the top of each keyboard for a quick transition between Internet Browsers, email, Media Player, volume control and more, the conveniently placed buttons and optical trackball provide simple and precise singlehanded navigation. Set-up is as simple as plugging the included USB RF receiver into your computer's USB port. With an ergonomic design and just 10.25 inches long, 4.4 inches wide and 1 inch high; the ultra thin, lightweight, and stylish black keyboard offers comfort wherever you type.

The GKM681R keyboard will ship in Q1 2011 with a MSRP of \$59.99

### **About IOGEAR**

*IOGEAR, headquartered in Foothill Ranch, Calif., manufactures innovative Home Electronics and Information Technology solutions that enable convergence through connectivity. Founded in 1999, the company develops products that help integrate technologies, share resources, decrease clutter and energy consumption, and reduce electronic waste. IOGEAR distributes throughout North and South America, Europe and Asia.*

*The company emphasizes the conservation of natural resources to both employees and customers through its GREEN initiatives program and "Road to a Million Trees" campaign. In partnership with Trees for the Future, one tree is planted for every product purchased on the IOGEAR site or through an IOGEAR GREEN initiative partner.*
