

KEYMANDER

Controller Emulator for use with Game Consoles

GE1337P

Gamers can now rejoice with the GE1337P and take advantage of their keyboard and mouse skills to dominate on their PS3® or Xbox® 360/Xbox® One video game system.

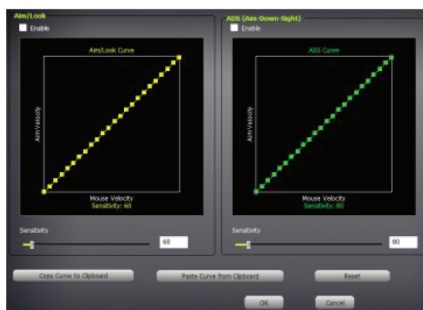

By connecting your wired or wireless keyboard and mouse to the KeyMander, all controller functions can be rapidly and more accurately accessed for that unfair advantage in high-speed first person shooters, role playing games, etc.

* Free KeyMander firmware download for your preferred game console

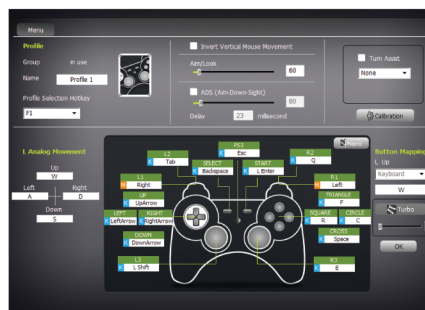

With a game console and the KeyMander you can now plug in your keyboard/mouse and enjoy the latest games without emptying your pockets on new PC parts!

KeyMander PC Software

Mouse Ballistics Editor

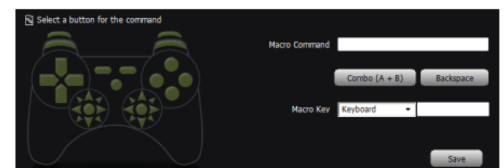

Custom speed and movement adjustments for the finest and most accurate gaming

Custom Key Mapping

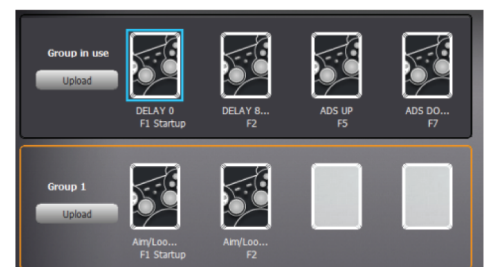

Give yourself the advantage you've been looking for with all your favorite FPS (First Person Shooter), RPG (Role Playing Games) and RTS (Real Time Strategy) games.

- Customize your personal keyboard / mouse controller settings
- Direct Button mapping using your controller for quick in-game customization

Macro Programming

Design custom button sequences; up to 16 actions into one (1) keyboard key for quick and rapid delivery!

Custom Profile

Create groups for different games or users; have up to 8 customized profiles to a group. Quick hotkey profile switching during live gaming!

KEYMANDER

Controller Emulator for use with Game Consoles
