

GHG700

Earmersion Duo

Music & Gaming Headset with Dolby Pro Logic IIx 7.1 Virtual Surround

IOGEAR's new GHG700 Earmersion Duo is a feature-packed, multi-functional headset that lets you experience gaming and listening to music with both style and comfort.

Bring Your Content to Life with Dolby 7.1 Surround Sound

The GHG700 features Dolby Pro Logic IIx technology that takes stereo audio and expands it to 7.1 surround sound. The GHG700 allows you to change audio playback modes for the best sound possible experience, whether you are gaming, watching a movie or listening to music.

Built-in Microphone and Audio Cable

IOGEAR's Earmersion Duo has a built-in microphone that allows you to communicate with other online players and take phone calls without the need for an external microphone. The 3.5mm auxiliary cable is also built into the headset so that you won't have to worry about misplacing your audio cable.

Style and Comfort

The ear cups on the GHG700 were designed using protein-based materials that are both breathable and soft. This, combined with the added headband cushions, reduce outer ear strain and fatigue for maximum comfort. The three-pointed angular design of the ear cups fits the ear more naturally and also provides a unique style.

Compatibility

The GHG700 is designed to work with Windows® and Mac computers, PS4™ and Xbox One® gaming consoles, as well as smartphones and tablets with a 3.5mm audio output.

Requirements:

3.5mm output

Package Contents:
