USB KVM Cable 6 Ft

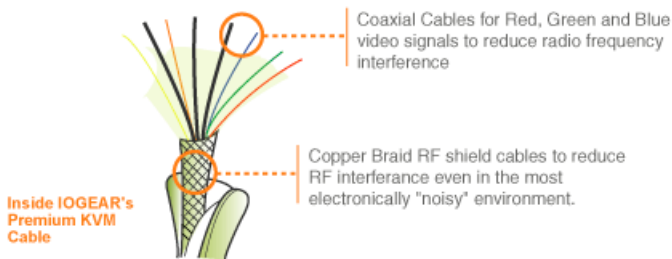

The cables connecting your USB computers to your GCS1716, GCS1808, GCS1742 or GCS1744 KVM switch determine the quality of communication between the CPUs and the switch. Our custom-made cables are designed to provide the highest signal capacity with the lowest signal loss. This important technology produces the highest quality video output - even after long distance transmission or in the most electronically noisy environments such as server cabinets. IOGEAR's premium custom-made KVM cables guarantee optimum signal integrity for high-grade server needs. The keyboard and mouse cables are made of double-sealed 22-gauge wire and are neatly wrapped with a heavy-duty video cable for simplified connections.

- 6ft bonded KVM cable with USB and VGA connections
- Connects your USB computers to your GCS1716, GCS1742 or GCS1744 KVM switch

- Custom made cables maintain the signal's optimal integrity and quality
- Convenient and functional cable design with double-shielded 22 gauge for keyboard, mouse and a UL-2919 video cable

How does it work?

Requirements

A GCS1716, GCS1808, GCS1742 or GCS1744 KVM Switch
Computers with USB and VGA connections.

Package Contents

1 x 6ft USB KVM Cable

Specifications

Function	G2L5202U	Dimensions	G2L5202U
Console Connectors		Unit Dimensions
