

G2LMM006

6ft 3.5mm (M) to 3.5mm (M) Aux Stereo Audio Cable

A high quality 3.5mm to 3.5mm (1/8 inch headphone jack size) male to male 6ft stereo audio cable. The cable can be used for connecting iPods, iPhones, or any device with a 3.5mm headphone jack output to a 3.5mm auxiliary input like those commonly found in vehicles, computers, stereo receivers, and HDTVs. Once the audio cable is connected, you can listen to audio from your desired device to your desired sound system.

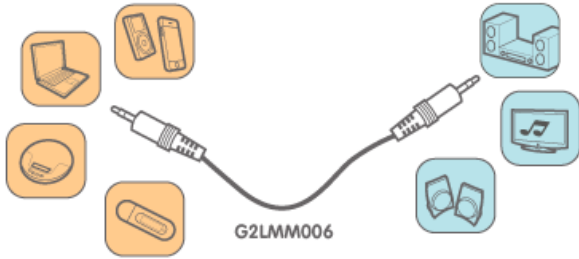

- Works with iPod, iPhone, computers and other portable CD/MP3 players
- Connects to home stereos, sound cards, portable speakers, Aux ports on automobiles, and TVs
- Connects to any device with a 3.5mm headphone jack or 3.5mm auxiliary input

How does it work?

Connect to your...

- iPod, iPhone, computer, CD player and MP3 player
- Stereo, TV, and portable speakers

Requirements

- 2 devices with a 3.5mm analog audio connection

Package Contents
