GCL138

LCD Console Drawer and 8-Port KVM Bundle

US and Canada part number only.

IOGEAR's new 8- port KVM and LCD KVM console bundle offers a space-saving, streamlined approach to IT environments by integrating a keyboard, 17" LCD monitor, and touchpad in one unit, the 8-port KVM is bundled as the additional tool to manage the servers.

The LCD display is built into the cover; the keyboard and touchpad are built into the base. Setup is fast and easy. There is no software to configure, no installation routines, and no incompatibility problems. Slide the console module section out; flip the cover up; and you are ready to go to work. When finished, flip the cover down and slide the console module back into the rack.

- Integrated KVM console featuring a 17" LCD monitor, keyboard and touchpad
- 1024 x 768 resolution provides a sharp video display
- Adjustable depth to fit different sizes of racks
- Control up to 8 computers and expand to 512 computers by connecting multiple GCS138s together
- On Screen Display provides a convenient method for accessing the computers

- Connected computers can be added or removed from the setup without disturbing the other computers
- Keyboard/mouse translation allows PS/2 peripherals to control both PS/2 and serial-based computers
- Easy to install - no software required
- Built in AutoScan mode
- LEDs allow for easy status monitoring

Lifetime technical support

IOGEAR®
