

GCS124U

4-Port MiniView™ II USB KVM with cables

IOGEAR introduces the first ever "True" USB KVM with USB-enabled hot keys and On Screen Display (OSD). IOGEAR's 4-Port MiniView™ II USB KVM (GCS124U) allows you to control up to four computers with one USB keyboard, monitor, and USB mouse. With IOGEAR's USB Sniffing Technology you can use your favorite USB keyboard to control all features of the USB KVM. The MiniView™ II USB features keyboard and mouse emulation so your computer never loses touch with its peripherals. IOGEAR's GCS124U is daisy-chainable which will allow you to control up to 64 computers from one USB keyboard, monitor, and mouse. The OSD allows you to name each computer and set security access for each. Since IOGEAR is a total solutions provider, we have included four sets of premium bonded KVM cables. Cables included!

- Includes 4 complete sets of premium 2-in-1 bonded KVM cables
- Features the first ever USB Sniffing technology
- Hot swappable - Plug-n-Play
- Keyboard and mouse wakeup function
- USB Hot Key selection
- On Screen Display (OSD) with security control
