

GCS1724

## 4 Port VGA KVM Switch, PS2 and USB

Plug-N-Play - Share four computers using a keyboard, mouse and VGA monitor (2048x1536). Cables included.

### 4-Port VGA KVMP Switch with USB & PS/2 Interface

IOGEAR's 4-Port VGA KVMP Switch allows full control and switching between your four computers from a USB or PS/2 keyboard, mouse, and VGA monitor. This 4-Port switch supports up to 2048x1536 video resolution, perfect for home or small/medium office environment. With a built-in USB 2.0 hub, EDID support, and complete keyboard and mouse emulation, this VGA KVMP switch easily centralizes your system while expanding your connectivity.

### Simple Operation for an Expanded Connectivity

True Plug-N-Play, simply connect the included cables into their appropriate ports without any software to configure or install. Easily switch between your two computers via push button, hotkey combination, or mouse\*. Expand your peripherals sharing such as hard drive and printer/scanner from the integrated USB 2.0 ports. Daisy chain a powered USB hub for a more expanded peripheral connectivity workstation. In addition, IOGEAR's DynaSync™\*\* provides EDID support; this feature reads and remembers the monitor's optimal display parameters and refresh rate, eliminating delay when switching between computers.

- Control 4 computers with one keyboard, mouse and monitor
- 4-Port VGA KVM
- Video resolution: 2048x1536; DDC2B
- Switch between computers via push buttons, hotkeys and mouse
- USB or PS/2 mouse and keyboard peripherals
- OS Support: Windows, Linux, Mac and Sun
- Video DynaSync™ optimizes display resolution and eliminates boot-up display problems
- Supports widescreen resolutions
- Console mouse port emulation/bypass feature supports most mouse drivers and multifunction mice
