IOGEAR®

GCS1734

4-Port MiniView™ Extreme Multimedia KVMP Switch w/Cables

- Control four USB or PS/2* computers from 1 keyboard, monitor, and mouse
- Share two USB peripheral devices such as printers and scanners, as well as speakers and a microphone*
- High Resolution: Up to 2048 x 1536
- Multi OS platform support
- Computer switching via front panel pushbuttons or hotkeys

4-Port VGA KVMP Switch with USB & PS/2 Interface and Audio

IOGEAR's MiniView™ Extreme Multimedia KVM and Peripheral Sharing Switch brings extra value to conventional KVM switches by offering USB peripheral sharing capabilities, audio and microphone support. Control and switch up to 4 computers from a set of USB or PS/2 keyboard, mouse, and VGA monitor. This 4-Port VGA KVMP switch is an out-of-the-box solution as all cables* are included. Save money and reduce clutter by eliminating the need for multiple monitors, keyboards, mice, and peripheral devices such as printers, scanners, external hard drives, and more. Up to 127 different USB devices can be daisy chained from this KVMP switch. Sharing speakers and a microphone also offers extra value and convenience for the users.

USB and KVM technology together makes cross-platform management easy. A single USB console can control a PC and a Mac, or even a Sun workstation, and share peripherals and audio devices between the computers. Any USB-enabled computers, using any USB-compatible operating system, can benefit from the efficiency, expense reduction and convenience of IOGEAR's MiniView™ Extreme KVMP switch.

*In the case when you need extra cables for PS/2 connections: IOGEAR Part No. G2L5302P

- Control four USB or PS/2* computers from 1 keyboard, monitor, and mouse
- Share two USB peripheral devices such as printers and scanners, as well as speakers and a microphone*
- High Resolution: Up to 2048 x 1536
- Multi OS platform support
- Computer switching via front panel pushbuttons or hotkeys

- Asynchronous hotkey switching between KVM focus, USB peripheral, and Audio ports
- Complete keyboard and mouse emulation for error free booting
- Support special keys on Mac and Sun keyboard
- LED display for easy status monitoring
- Easy installation: no software required, hot swappable
- Firmware Upgradable

*PS/2 KVM Cables are available and sold separately.
