IOGEAR®

GCS922U

2-Port USB DVI Cable KVM Switch

Plug-N-Play - Share two computers using a keyboard, mouse and DVI monitor (1920x1200@60Hz). Cables included.

2-Port USB DVI Cable KVM Switch

IOGEAR's Plug-N-Play GCS922U simplifies the method of sharing two computers using one DVI monitor, keyboard and mouse. Perfect for a home office or small / medium size business with needs to consolidate workspace to streamline or develop efficient workstations to eliminate multiple desktop setups. The 2-port USB DVI Cable KVM supports video resolution up to 1920 x 1200 @ 60Hz, giving users excellent, crisp images on the screen every time.

Straight Forward Connectivity

Switch and control any of the two connected computers easily via remote push button. This 2-Port DVI switch does not require external power and supports USB hot-plugging, making it easy to add or remove USB computers connected to the KVM. A true Plug-N-Play solution, IOGEAR's 2-Port Cable DVI KVM switch requires no software installation. Expand your USB peripheral sharing by using the USB mouse port.
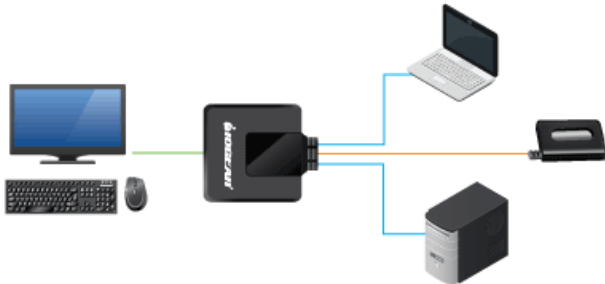

Secure Switching

This Cable DVI KVM switch also offers a cost effective solution to increase security by allowing users to securely switch between the Internet connected PC and an Intranet connected PC. With built-in cables, IOGEAR's 2-Port USB DVI KVM switch is a true out-of-the box plug and play solution to your connectivity needs!

- Control two computers with one keyboard, mouse and monitor
- 2-Port DVI-D KVM
- Video resolution: 1920x1200 @60Hz
- Switch between computers via remote push buttons
