

GFR201RM

Pocket Card Reader

Removable Flash Memory Drive: Supports Reduced-size MultiMedia Cards (RS-MMC) (not included) A Flash Drive for Removable Memory Cards The GFR201RM Universal Drive is a solution for hi-speed, bi-directional image and data transfer. Images and data can be transferred quickly from Reduced-size MultiMedia Cards (RS-MMC) to PCs or Macs. This is particularly handy in many applications, including digital cameras and MP3 devices. With the increased speeds, sustained data transfer rates, it is up to 4 times faster than the standard digital camera connection. The Universal Memory Drive is an ideal way to bridge the gap between your desktop computer and devices such as cell phones, digital cameras, personal digital assistants (PDAs) and handheld/palmtop PCs. No matter where you go, your Universal Memory Drive allows you to easily bring your digital images and data with you. Transfer pictures, data, and music at blazing USB 2.0 Speeds, up to 480 Mbps. Just plug the Memory Drive into your computer's USB 1.1 or 2.0 port and you're ready to go in seconds.

- Functions as a portable USB Flash Drive or card reader
- Read and write RS-MCC Flash Memory Cards
- Easy installation; no driver needed for Windows ME/2000/XP
- Supports USB specification v2.0
- Bus-Powered for mobile operation
