

GFR202MSD

Pocket Card Reader

Removable Flash Memory Drive: Supports Memory Stick PRO Duo & Memory Stick Duo Cards A Flash Drive for Removable Memory Cards (not included)

The GFR202MSD Universal Drive is a solution for hi-speed, bi-directional image and data transfer. Images and data can be transferred quickly from Memory Stick PRO Duo & Memory Stick Duo Cards memory cards to PCs or Macs. This is particularly handy in many applications, including digital cameras, MP3 devices and the PSP. With the increased speeds, sustained data transfer rates, it is up to 4 times faster than the standard digital camera connection. The Universal Memory Drive is an ideal way to bridge the gap between your desktop computer and devices such as digital cameras, personal digital assistants (PDAs), the PSP and handheld/palmtop PCs. No matter where you go, your Universal Memory Drive allows you to easily bring your digital images and data with you. Transfer pictures, data, and music at blazing USB 2.0 Speeds, up to 480 Mbps. Just plug the Memory Drive into your computer's USB 1.1 or 2.0 port and you're ready to go in seconds.
