SD / MMC / MicroSD Card Reader / Writer

IOGEAR is proud to announce a fund-raising initiative benefiting Susan G. Komen for the Cure®, the world's largest grassroots network of breast cancer survivors and activists dedicated to taking global action against breast cancer through research, community health programs and advocacy.

The SD / MicroSD / MMC Card Reader / Writer also sports an eye-catching pink finish with the Komen "Running Ribbon" prominently displayed. IOGEAR choose this particular card reader because the price is low enough for almost anyone to show support and because so many devices rely on memory cards, it has instant mass appeal

Secure Digital cards are ubiquitous in consumer electronic devices and have become the dominant means of storing several gigabytes of data in a small form factor. This new device is extremely compact but big on compatibility within the SD memory card family. The unit supports the very latest in memory card format, SDXC (Secure Digital Extended Capacity).
