Precision Pro Gaming Mouse Pad

Kaliber Gaming by IOGEAR's SURFAS Professional Gaming Mouse Mat is designed to provide tournament level gaming performance with any type of mouse. The SURFAS features a micro-weave top layer that provides superior control with FPS mice, and its ultra-uniform surface texture aids sensor pickup for precision tracking. The large size allows lower DPI players more room for movement without running off the pad, while the smooth horizontal grain helps boost side-to-side speed.

Perfect for FPS Players

The SURFAS is the perfect size for First-Person-Shooter players that prefer to game with a lower, more precise dpi setting for games like Counter-Strike: GO, etc. and ensures you can react quickly without running off the pad. Aside from its ample size, the SURFAS features a micro-knit woven top layer that provides a higher level of control while also maintaining a smooth gliding surface.
