

GHDR60

High Performance HDMI® Cable with Ethernet - Redmere Technology 60ft

Long HDMI Cable / Active HDMI Cable / Redmere HDMI Cable

IOGEAR's 60ft High Performance HDMI® Cable with Ethernet using Redmere Technology provides both high-definition video and multi-channel audio connection between any digital HDTV / displays and digital source devices such as DVD players, DVRs, digital set-top boxes (cable / satellite), A/V receivers, game consoles and many more. Engineered to deliver the best in class digital video and audio connectivity.

Ideal Solution for:

- HDTVs, Plasma displays, and projectors
- Blu-ray / DVD players
- DVR / Set top boxes from cable and satellite providers
- PlayStation® 3, PlayStation® 4, Microsoft® Xbox One, Microsoft® Xbox 360, and Wii U
- Home computers, media servers, and home theater PC's
- A/V receivers and many more...

Active HDMI Cable with Redmere Technology

Passive HDMI cables have distance limitations that require amplification or thicker construction to overcome when using them in long run applications. IOGEAR's Active HDMI cables with Redmere technology overcome these distance limitations by incorporating several tiny integrated circuits to boost and equalize digital signals down the cable, allowing for thinner construction and avoiding the use external amplification. By using Redmere chipsets, our active cables can sustain speeds of 2.25Gbps per channel (6.75Gbps total) allowing video resolutions of up to 1080p to be transmitted over long cable runs without signal degradation.

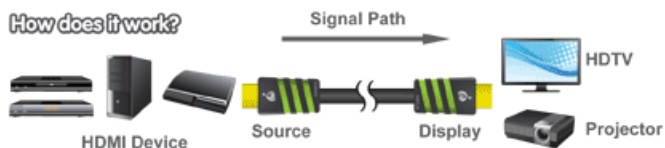

- RedMere Technology - Provides longer distances using thinner cable*
- High Speed HDMI® Cable with Ethernet
- Gold-plated connectors for optimal signal transfer and corrosion resistance

- Supports full HD 1080p/3D/4K x 2K resolution
- Active HDMI cable - No power adapter needed
- 60ft length

*Note: This is a Directional HDMI Cable - Must have the SOURCE end plugged into the HDMI device and the DISPLAY end plugged into the display

How does it work?

Note: This is a Directional HDMI Cable - Must have the SOURCE end plugged into the HDMI device and the DISPLAY end plugged into the display

Requirements

Display

- 1 HDMI or DVI-D input*

Media Source

- 1 HDMI

Package Contents

- 1 x 40ft Redmere HDMI cable

Specifications

Function	GHDR60	Dimensions	GHDR60
