Kaliber Gaming® IKON™ Gaming Keyboard

The IKON Gaming Keyboard comes packed with features to take your gaming experience to the next level. Unbox one today to gain the upper hand in your online battles.

Mechanical-Feeling Gaming Keyboard

Kaliber Gaming's IKON Gaming Keyboard is designed from the ground up to meet the demands of gamers; delivering features you would expect from top-of-the-line gaming keyboards, at a price that's easier to swallow. The wide acceptance of membrane style keyboards all but priced mechanical keyboards from the market until computer gamers discovered the vastly superior feel of the mechanical key switches. Unfortunately, the cost of mechanical key switches are exponentially higher than membrane designs, so the feel of a high-end keyboard loaded with gaming features has remained out of reach for many people until now. The IKON's innovative key structure does away with the overly soft feel of normal membrane designs and provides a solid stroke with a positive "click" feeling of engagement, very similar to that of a mechanical keyboard. The keys are then given an oil-resistant matte UV coating so they can stand up to the hard use of frenzied gamers. Add in 26 anti-ghosting keys, windows key lockout, WASD/arrow key swap, water-resistant internals plus a customizable 3-color LED backlighting, and you have the IKON from Kaliber Gaming.

Water-Resistant

The IKON Gaming Keyboard employs a water-resistant design that allows the keyboard to function normally in several inches of water for over an hour. Though we're not suggesting that you could do your gaming in the bathtub (yeah, our lawyers made us remove that part), we are suggesting that if during some major gaming session you accidentally spill a drink into your IKON your character may become toast, but your IKON will survive to fight another day.

- 26 Anti-Ghosting keys so you never miss a keystroke!
- 3-Color LED backlight with adjustable brightness
- W-A-S-D key functions swappable with arrow keys for MMO gamers
- Windows key lockout prevents accidental pop up while gaming
- All key lockout prevents unintended keystrokes during game breaks
- Water-resistant design resists damage from spilled drinks
- Membrane structure embedded, POM plunger keycaps offer a soft, smooth tactile feel
- Matte finish keys with UV surface treatment provides resistance to natural finger oils
- Heavy weight keyboard base for added stability when typing or gaming

Requirements

- Windows® 10, Windows® 8.1, Windows® 8, Windows® 7, Windows Vista® , Windows XP®
- USB

Package Contents

- 1 x GKB703L
- 1 x Quick Start Guide
- 1 x Warranty Card

Specifications
