Kaliber Gaming HVER Gaming Keyboard with RGB

- RGB zone backlighting with 13 lighting patterns
- Brushed aluminum chassis provides a solid, flex-free platform
- Simple key customization with programmable software
- Double injected keycap characters never wear off
- 26 Anti-Ghosting keys so you never miss a keystroke!**

RGB Gaming Keyboard with Hover Key Design

Kaliber Gaming is excited to announce the HVER Aluminum Gaming Keyboard with RGB as the newest addition to the hugely successful HVER keyboard family. The HVER models get their name from the open frame design with elevated keys that appear to "hover" above the brushed aluminum chassis. Already known for good looks, HVER RGB builds on the success of the original models adding multi-zone RGB LED backlighting with multiple lighting patterns.

Like all HVER models, the HVER Aluminum Gaming Keyboard with RGB is designed to provide everything gamers need at a price that won't break the bank. HVER Aluminum Gaming Keyboard with RGB carries on the plunger key design that provides a mechanical keyboard-like feel, and also includes the premium double injected keycaps that deliver a lifetime of performance without the tops ever wearing off.

RGB Multi-Zone LED Backlight

The HVER Aluminum Gaming Keyboard with RGB adds a vibrant display of color with multiple lighting patterns you can change without the need for special software.

- RGB zone backlighting with 13 lighting patterns
- Brushed aluminum chassis provides a solid, flex-free platform
- Simple key customization with programmable software
- Double injected keycap characters never wear off
- 26 Anti-Ghosting keys so you never miss a keystroke!**
- Windows key lockout prevents accidental menu pops
- Plunger key design delivers a similar feel to mechanical switches
- Heavy weighted base for added stability when gaming

**26 Anti-Ghosting keys refers to the following keys covering most 3-key combinations used in gaming: Q, A, Z, W, S, X, E, D, C, B, R, F, V, T, G, M, Caps Lock, Space, ?(UP), ?(Down), ?(Left), ?(Right), Tab, L-Ctrl, L-Shift, L-Alt.
