

GKB720RGB-BN

HVER PRO RGB Mechanical Gaming Keyboard-Brown Switch

- Brown mechanical switches require less finger pressure and deliver a quieter response
- RGB per-key backlighting with 18 lighting patterns
- Fully programmable keys for macro functions, shortcuts and more!
- Full Anti-Ghosting with key rollover, so you never miss a keystroke!
- Kaliber Gaming software to set custom backlighting and keyboard functions

RGB Mechanical Gaming Keyboard

Kaliber Gaming's HVER PRO RGB Mechanical Gaming Keyboard combines the exceptional feel and response of mechanical key switches with a beautiful but rugged aircraft aluminum chassis, per-key RGB backlighting, and a slew of gaming features that put the HVER PRO on par with keyboards selling for nearly twice the price. The HVER PRO is available with your choice of brown or red type mechanical switches so you can choose the keyboard feel that best fits your play style and typing preference.

HVER PRO is fully programmable for macro functions, shortcuts, and more with the FREE Kaliber Gaming software that allows you to customize the RGB per-key backlighting to deliver a truly personalized gaming experience.

- Brown mechanical switches require less finger pressure and deliver a quieter response
- RGB per-key backlighting with 18 lighting patterns
- Fully programmable keys for macro functions, shortcuts and more!
- Full Anti-Ghosting with key rollover, so you never miss a keystroke!
- Kaliber Gaming software to set custom backlighting and keyboard functions
- Double injected keycaps ensure characters will never wear off
- Brushed aluminum chassis adds rigidity and durability
- Windows key lockout prevents menu pop-ups while gaming
- Swap W-A-S-D key functions with arrow keys for MMO gamers
- Heavyweight base for added stability when gaming
- Braided USB cable jacket
