Quietus Desktop - Low Profile Keyboard and Mouse Combo

Quiet Keyboard and Mouse

IOGEAR's new Quietus Desktop Keyboard and Mouse Combo features our innovative Quietus key technology. This quiet keyboard with low-profile keys is designed to provide a quiet and comfortable typing experience, especially for office environments where many people share a common space. The chiclet style key layout allows for extra space between keys, with a slightly larger key area to minimize typos.

Multimedia Hotkeys

The Quietus Desktop keyboard includes 12 built-in hotkeys to provide quick access to some of the system's most useful functions, without opening a menu. You can easily access all your favorite multimedia controls, launch a web browser, email, etc. The hotkey functions include Browser open, Email launch, Search, Desktop Explorer launch, Favorites list, Desktop view (close all windows), Calculator, Media Player launch, Previous, Next Play/Pause, and Stop.

Long Life Keys

IOGEAR's Quietus keys are not only quiet, but they are also durable enough to provide many years of service. The Quietus key design features quality construction that enables a keystroke life of up to 10 million cycles, so you are much more likely to wear out your computer before you wear out a Quietus keyboard.

- Low-profile Quietus keys for quiet and comfortable typing
- 1000 dpi resolution optical mouse
- 12 multimedia hotkeys for quick access to your music, e-mail, browser and more
- Chiclet style keyboard layout
