Tacturus™ RF Desktop - Wireless Keyboard and Touch Mouse Combo

Quiet Comfortable Typing

IOGEAR's new Tacturus™ RF Desktop Keyboard and Touch Mouse Combo features our innovative Quietus™ keys. These low-profile keys are designed to provide a quiet and comfortable typing experience. The chiclet style key layout allows for extra space in between the keys and a slightly larger key area to improve typing accuracy.

Touch Mouse

The Tacturus™ RF Desktop comes equipped with a Touch Mouse. Instead of a traditional scroll wheel, the touch mouse features a touch pad that allows you to navigate large web pages, documents, programs and more like never before. The mouse utilizes a sensitive touch sensor to track even the slightest of finger movements for easy and fluid scrolling. The Tacturus™ mouse supports both vertical and horizontal animation scrolling*.

Wireless

The Tacturus™ RF Desktop is completely wireless. Its advanced 2.4GHz wireless receiver will allow you to enjoy your keyboard and mouse from up to 33ft away.

- 2.4 GHz wireless connection- up to 33ft range
- 1000dpi resolution wireless mouse with touch pad
