

GKM561RKIT

PC-to-TV Kit

Looking for a way to control your PC from your TV? The IOGEAR PC-to-TV Kit (GKM561RKIT) makes connecting your PC to your TV a snap! By providing you with the necessary audio and video cables such as, an HDMI cable, VGA cable, 3.5mm to 3.5mm audio cable and 3.5mm to RCA cable, the kit gives you the most flexible connecting solution for getting audio and video to your big screen TV! Along with the Wireless Multimedia Keyboard, this total package takes the family room to the next level of entertainment by putting you in control.

Maximize your experience on your big screen TV from the comfort of your living room sofa or couch. The possibilities are endless...

- Freely browse your favorite Internet sites
- Watch all your favorite Hulu, YouTube, and Netflix videos
- Keep up to date with Facebook, MySpace, and Twitter
- Windows Media Center and iTunes
- View all your family photos and videos

The ultra-slim, and low profile Wireless Multimedia Keyboard lets you type and navigate in style and comfort from any angle across large rooms. In addition to its creative design, it has built-in left and right mouse buttons with a scroll wheel, and uses the latest in laser trackball technology, giving you a stylish, ergonomic, and slip resistant wireless solution for your connected lifestyle.

- Simple and smart PC-to-TV solution
- Freely browse your favorite Internet sites
- Watch your favorite online videos on your TV
- Keep up to date with social networking sites on your TV
- Share all your family photos and videos on your TV
- Windows Media Center ready
- Ultra-slim ergonomic wireless multimedia keyboard
- 2.4Ghz technology offers wireless range up to 33 feet away
