## USB Optical Mini Mouse, 800 dpi

IOGEAR's USB Optical Mini Mouse 800 (the vanguard product in the company's new MiniMouse 800 Series) is an excellent tool for mobile professionals. The 800 dpi resolution offers twice the accuracy of standard mice, and is ideal for graphics and web designers who demand pinpoint accuracy. It is small, lightweight, consumes virtually no room in laptop carry-bags, works on most surfaces and needs just inches for accurate movement. The ergonomic contour design offers comfortable use for hours; moreover, its greater speed reduces excessive and potentially harmful arm movement. This Mini Mouse also features a retractable cable that is quick and easy to manage, without the tangles and mess of standard cables. This unit is USB ready, Plug-n-Play, and Hot Pluggable. It is also backed by IOGEAR's 3 Year Limited Warranty.

"...smaller is better. We've tried Microsoft's Notebook Optical mouse, and it's just not as good as the IOGear USB Optical Mini Mouse 800..." -Charlie White, DigitalVideoEditing.com

- 800 dpi resolution offers twice the accuracy of standard mice
- Very lightweight and portable, perfect for mobile professionals
- Uses very little real estate on your workspace- needs only a few inches for accurate movement
- Operates on most surfaces- no need for mouse pads!
- Ergonomically contoured design for comfortable use
- Plug-n-Play and Hot Pluggable
- Retractable cable and stylish carrying case included
- Solid 3 Year Limited Warranty
