## Bluetooth Laser Mouse

IOGEAR's new Bluetooth® Laser Mouse is an excellent tool for medical offices, libraries, and schools as well as for mobile professionals, gamers, and desktop users.

This new IOGEAR mouse uses VCSEL (Vertical Cavity Surface Emitting Laser) as the light source, which provides 30x more tracking power than mice using an optical sensor. VCSEL allows the mouse to work on virtually any surface. It provides an extremely high resolution of 1600 dpi, substantially reducing the amount of injury-producing hand and arm movement. IOGEAR's Bluetooth® Laser Mouse is USB ready, Plug-n-Play, and Hot Pluggable. It provides a 33 feet (10 meter) wireless range, and it is also backed by IOGEAR's 3 Year Limited Warranty.

- 1600 dpi laser sensor offers twice the accuracy of typical mouse movement
- 800/1600 dpi adjustable resolution
- Ergonomic and contour design good for both right and left hand users
- Operates on most surfaces without the need for a mouse pad
- Works up to 33 feet from your notebook or desktop
- Light and very portable, great for mobile professionals
- Saves precious space in your mobile work area
- Power on/off switch conserves electricity for maximum battery life
- Comes with a USB charger to allow you to charge batteries through the laptop
- 3 Year Limited Warranty

## Requirements

- Computer/Laptop must be Bluetooth-enabled and support the HID profile
- Operating System:
  - Windows 98SE/ME/2000/XP
  - Windows Vista
  - MAC OS X v10.3 - 10.6

## Package Contents

- 1 Bluetooth® Laser Mouse
- 1 Carrying Bag
- 1 USB Charger Cable
- 1 Installation Guide
- 2 AAA Rechargeable Batteries
- 1 Warranty / Registration Card

If the computer/laptop is currently not Bluetooth-enabled, a Bluetooth® to USB Adapter will be required. Refer to IOGEAR part number [GBU221](#) and [GBU321](#).
