

GME321R

Phaser Mouse

PHASER- IOGEAR's hand-held RF wireless mouse is the perfect tool for making presentations, it gives you the freedom to walk around the room and not be bound to the computer. The Radio Wave technology allows this mouse to work at any location and from any direction; there is no need to point the mouse toward the computer or sensors. The thumb-operated track ball and the ergonomic contour make cursor movement easy and comfortable. The second left-click button allows you to trigger instead of clicking the mouse. The built-in laser pointer helps you to direct the audience's attention to where you want it. This device is also backed by IOGEAR's 3 Year Limited Warranty.

- Ideal for making presentation
- Control your computer from up to 50' away with no wires
- No need to point the mouse toward the computer
- Advanced RF technology provides accurate cursor movement
- Thumb operated track ball eliminates the need to put the mouse on any surface
- Laser pointer makes this mouse an excellent tool for both classroom and field presentation
- Plug-N-Play
- Ergonomically contoured design for comfortable use
- 3 Year Limited Warranty
