## Phaser 3-in-1 Presenter / Mouse / Laser Pointer

IOGEAR's Phaser 3-in-1 Presenter / Mouse is an excellent tool for medical offices, libraries, and schools as well as for mobile professionals, gamers, and desktop users. No wires mean you've got the freedom to walk around the room during your presentation without being bound to the computer. Compatible with both PCs and Macs, the unit's advanced 2.4GHz Radio Wave technology allows it to work at any location and from any direction within its 30 feet range. Even nicer, there's no need to point the mouse toward the computer or sensors. The thumb-operated omni-directional cursor control allows the unit to work as a full-functioned mouse, as well as a remote presenter. The built-in laser pointer helps you to direct the audience's attention to where you want it.

- Ideal for making computer-based presentations
- Control your computer from up to 30' away with no wires
- No need to point the mouse toward the computer
- The thumb-operated trackball allows this unit to work as a full-functional presenter mouse
- Laser pointer makes this mouse an excellent tool for both classroom and field presentations
- USB Plug-N-Play receiver, no software installation required
- Easily charge the batteries through the USB charging cradle
- Ergonomically contoured design for comfortable use
- 3 Year Limited Warranty

**Requirements**

- Windows 2000, XP, Vista, 7 or Mac OSx
