Kaliber Gaming FOKUS II Pro Gaming Mouse

- USB 2.0 eSports professional gaming mouse
- 8 Programmable buttons with custom programming software
- Programmable RGB LED illumination
- Pixart PMW-3360 "flawless" optical sensor
- 7 Shift-on-the-fly resolution steps up to 12,000 dpi

eSports Pro Gaming Mouse

The FOKUS II Pro Gaming Mouse is the next evolution in tournament-ready mice from IOGEAR's gaming accessory brand, Kaliber Gaming. With the addition of Pixart's heralded PMW-3360 sensor, the FOKUS II delivers a tremendous upgrade in speed and resolution for the ultimate gaming performance. Equipped with this new "flawless" optical sensor, FOKUS II now features seven programmable shift-on-the-fly resolution steps up to 12,000 dpi, and is free of the acceleration, prediction, and jitter issues affecting other mice.

FOKUS II also includes user interface upgrades such as Sniper Button programming with dpi adjustment and configurable RGB LED backlighting. But the upgrades don't stop on the inside! The rock-solid cast aluminum frame is now wrapped in a blacked-out, satin powder coating and its body is updated with a matte black, soft-touch finish that feels great in-hand, ensuring FOKUS II looks every bit as good as it performs!

12,000 dpi Flawless Optical Sensor

Program up to 5 different dpi settings and instantly shift between each with the press of a button

8 Programmable Buttons

Use the Kaliber Gaming software to program up to 8 buttons with macros or custom functions
