GMFPSU22W6

2-Port USB 2.0 Multi-Function Print & Storage Server

IOGEAR's palm-sized 2-Port USB 2.0 Multi-Function Print and Storage Server allows any networked computer PC-independent access to an external hard drive, flash drive, memory card reader or USB Multi-Function Printer (MFP). On the printer side, this multi-function server allows multiple network users to print, scan, and fax using the same Multi-Function Printer. This eliminates the need to purchase multiple expensive multi-function printers as well as frees you from having to use a dedicated computer for printing. In addition, with the support of USB 2.0 Hub extension, this device can support up to 5 USB devices over your home or office IP network. It complies with USB 2.0 specifications, and provides users with an auto-sensing 10/100Base-T port. The print server will even automatically identify your printer make/model upon connection. The built-in web management feature provides a convenient way for users to configure, monitor and even reset the print server via a web browser. GMFPSU22W6 Printer Compatibility List
