

GMP10K

GearPower Ultra Capacity Mobile Power Station for Tablets and Smartphones

USB Battery Charger / Portable Battery Charger

The GMP10K Ultra Capacity Mobile Power Station is the largest portable battery in the IOGEAR GearPower lineup. Boasting a whopping 11,000mAh capacity and featuring dual USB outputs capable of charging tablets and smartphones simultaneously, the GMP10K ensures you will never run out of power when you need it the most!

Nicknamed "The 10K," the Ultra Capacity Mobile Power Station serves as a multi-use battery charger when conventional A/C outlets are not available, storing enough power to fully recharge devices such as iPhone® 5 more than 6 times*. The GMP10K is compatible with most smartphones and tablets including iPad®, as well as handheld gaming systems, digital cameras, MP3 players, etc.

This stylish battery can go anywhere with you. Don't let power hungry apps or streaming video keep you from using your smartphones or tablet to the max when away from your power supply. Connect to the GMP10K and charge your tablet and smartphone at the same time with the dual USB charging ports. This is a must have for anyone with an iPad, Galaxy Tab®, Google Nexus 7 or 10, Kindle Fire HD®, or other tablet device.

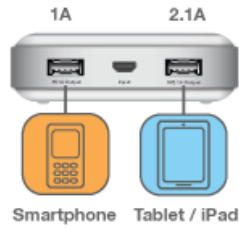

Perfect for Students and Power Users

Whether taking notes on a tablet in class or taking the 20th sales call of the day, the big screens and 4G service of today's devices consume battery power like never before. Despite its enormous storage capacity, the GMP10K is surprisingly small (0.75" x 4.75" x 3") and the perfect size to slip into a briefcase, backpack or purse, becoming the perfect companion for students, salespeople and anyone who spends their day on a mobile device!

How does it work?

- Connect your mobile device¹ to the 1A output port with your USB cable
- Connect a second device² to the 2.1A output port with your USB cable
- Once charged up, enjoy the freedom of power anywhere

Note: Fully charge Mobile Power Station before use. One Micro-USB is included; device USB cables are not included.

Supported Devices:

¹ 1A output port supports: most cell phones, smartphones, iPhones, iPods, BlackBerry phones, digital cameras and most MP3 players and other devices which require 1A power supply
² 2.1A output port supports: iPads, most tablets and other devices which require 2.1A as well as most cell phones, smartphones, iPhones, iPods, BlackBerry phones, digital cameras and most MP3 players

Requirements

- A computer USB port or wall power outlet to be used with included USB to A/C wall adapter

Package Contents

- 1 x Mobile Power Station
- 1 x USB to Micro-USB Cable
- 1 x USB to A/C Power Adapter
- 1 x Protective Carry Pouch
- 1 x Quick Start Guide
- 1 x Warranty Card

Specifications
