

GMPC10K

GearPower USB-C 10,000mAh Mobile Power Station

The high capacity lithium-ion battery features DUAL USB ports capable of charging two devices AT the same TIME, such AS your POWER hungry tablets, headphones, cell phones, wearables AND other rechargeable devices.

USB-C Battery Pack

IOGEAR's GearPower USB-C™ 10,000mAh Mobile Power Station will keep your USB-C and USB Type-A devices powered and ready to go. The high capacity lithium-ion battery features dual USB ports capable of charging two devices at the same time, such as your power hungry tablets, headphones, cell phones, wearables and other rechargeable devices. The USB-C port outputs 3A of power while the Smart IQ equipped USB Type-A port outputs 2.4A. Additionally, the 3A input allows you to fully charge the Power Station faster* so that you'll be recharged and ready to go in no time. The GearPower also features built-in short-circuit, over-charge and temperature protection, and comes with its own carrying pouch and USB-C charging cable compatible with USB-C devices.

Smart Charging and No Overheating

In addition to simultaneously charging USB-C and USB Type-A devices, the power station has Smart IQ Charge Technology built into the USB Type-A port that allows it to detect how much power your device needs and adjusts the output accordingly. This means more efficient charging and no device overheating.

Fast Charge and Recharge

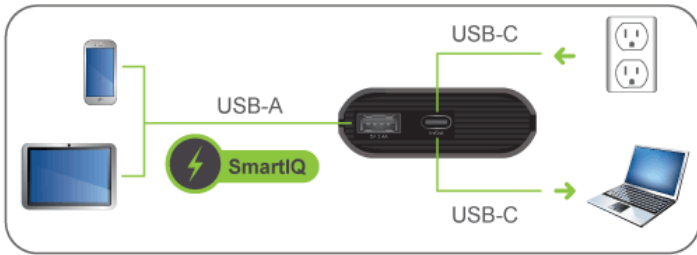

The GearPower is for those who wish to travel without the worry of an outlet not being close by. Use it between meetings, on the way to your next class, on the road, or simply when there aren't any outlets around. Charging your USB-C device with a power station that has been specifically designed for USB-C will give you much faster and more efficient charging than standard USB battery packs. The GMPC10K comes equipped with a 3A output / input port that significantly cuts your device charging time so that you're powered and ready to go in no time.

- 10,000mAh Lithium-Ion battery cell
- USB-C (3A) + USB-A (2.4A)
- Charge two devices at the same time such as: tablets, smartphones and USB-C laptops
- Smart Charging USB-A port detects how much power your device needs and adjusts the output accordingly
- 3A input charges the PowerStation faster*

- Capable of charging USB-C devices
- Includes USB-C charging cable compatible with USB-C devices
- Includes a convenient carry pouch
- Built-in short-circuit, over-charge and temperature protection

*3A output wall charger required. Do not use the MacBook wall charger to charge the power bank.

Requirements

- USB Type A or USB-C enabled device

Package Contents

- 1 x GMPC10K
- 1 x USB-A to USB-C Charging Cable
- 1 x Carrying Pouch
- 1 x Quick Start Guide
- 1 x Warranty Card
