

GPAC3C12KIT

GearPower USB-C Car Charger and USB-C Cable

Charge your USB-C™ Devices at up to 3A

If you have a mix of devices, IOGEAR has made life easier for you. IOGEAR's GearPower USB-C Car Charger has both a USB-C and USB-A port to charge your smartphone, tablet, and other USB compatible devices while on the road. Boasting the USB 3.1 specification, the GearPower car charger allows you to charge USB-C devices at up to 3A and the extra USB-A port allows you to fast charge all your other devices, simultaneously.

Powerful and Compact

We designed the GearPower to pack a lot of charging power into a package so small you'll barely notice it on your dashboard. The compact, low-profile power adapter fits perfectly into the cigarette lighter plug or 12V power port found in nearly every vehicle. When plugged in, the GearPower Car Charger will not interfere with shifters, drinks in cup holders, etc. and its compact design allows it to fit easily inside a purse or backpack, making it easy to transfer between vehicles.

- **GPAC3C12**
- USB-C (5V 3A) output allows charging of USB-C tablets and/or smartphones
- Compact design plugs into any 12V vehicle lighter socket or power port
- Additional 5V 1A USB charging port
