GearPower QuadSmart USB 4.2A Wall Charger

4-Port USB Wall Charger

Do you have several mobile devices and not enough places to plug in all the chargers? Do you travel and hate carrying chargers for each device? With the new GearPower QuadSmart USB 4.2A Wall Charger featuring SmartPower technology, you can connect up to four devices to charge at the same time, including iPhone® and iPad®. The four built-in USB outputs are controlled by a microprocessor that smartly balances the total 4.2A output between the devices to maximize charging rate. With SmartPower built into the GearPower QuadSmart, you can plug into any of the USB outputs without worrying if it is the right port for your device. The GearPower QuadSmart USB 4.2A Wall Charger plugs into any standard outlet and features folding prongs for easy storage when travelling. Just connect your USB charging cables and simultaneously rapid-charge up to four devices.

Charging Multiple Devices at Once

Connect two iPads into any two QuadSmart ports and each will fast charge at up to 2.4A, or connect four iPhones or other smartphones and each will charge at their normal 1A rate. When you mix devices like charging one iPad and 2 smartphones, the QuadSmart power balancing feature divides the available power according to device demand, so in this case the iPad receives up to 2.4A and the remaining power is divided into each smartphone. When the request for power exceeds 4.2A, as when connecting three or four iPads, SmartPower equally divides the charging current to all devices. So, even 4 iPads can simultaneously charge at the lower 1A rate.

The new GearPower QuadSmart quickly charges even the most power demanding mobile devices, including the Apple iPad®! In fact, iPad Mini® users will see an upgrade to their charging speed over the originally included charger and even charge a second device at the same time!

- Four USB outputs allow simultaneous charging of tablets, smartphones, etc.
- SmartPower balancing technology divides 4.2A total output among devices as needed, with up to 2.4A on any one port
- Quick-charge up to two iPads or charge four devices simultaneously
- Compact, folding plugs design

How does it work?

Requirements

- A/C power outlet

Package Contents

- 1 x GPBW4U4
- 1 x Quick Start Guide
- 1 x Warranty Card

Specifications

Function	GPAW4U4	Dimensions	GPAW4U4
Connectors (Output)	USB x 4	POP Information	
Power		10" Peg Hook	8
Amps	4.2A Total	6" Peg Hook	4
Voltage	5VDC Output	Unit Dimensions	
Power Input Rating		Height	2.375" (6.03cm)
Unit Power	100-240V-60/50Hz @ 0.5A	Length	3.375" (8.57cm)
Environment		Depth	1.31" (3.33cm)
Operation Temperature	32F - 104F	Inner Pack	
Storage Temperature	-4F - 140F	Height	6.75" (17.15cm)
