

GPEN100C

Digital Scribe

IOGEAR's Digital Scribe is the first device ever to capture natural handwriting from any surface, and store it directly onto your computer. Based on a revolutionary digital pen that uses ordinary ink refill and writes on any paper, the Digital Scribe stores handwritten notes, memos or drawings onto your computer screen for easy editing right away or save it for a later time.

IOGEAR's Digital Scribe allows you to express your thoughts in your own handwriting, personalize messages to friends, family or co-workers, convert your handwriting into typed text, and more! The Digital Scribe can also act as a substitute for your mouse making it easy to switch between applications you wish to write in. The digital pen can also supplement your keyboard for text input and speed up your work in hundreds of software applications that let you customize and create shortcut features.

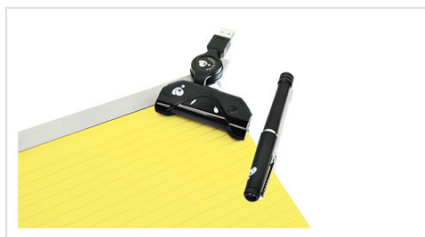

Take full advantage of Windows VISTA, Use Microsoft's "One Note", once only offered to Tablet PC User; IOGEAR's Digital Scribe can turn any desktop PC or notebook into a Tablet PC.

What is MyScript Notes Lite?

MyScript Notes is an application that can convert handwritten notes into digital information ready for further use.

- 12 Language Support (English, Spanish, Traditional/Simplified Chinese, French, Dutch, Italian, German, Portuguese, Swedish, Korean, Swedish, and Russian)
- Full editing capabilities allows for easy modifications - you can highlight, annotate, add additional information, adjust ink color, ink width, and page color

- Use the PEN as a Mouse, pen acts as a 2 button mouse
- Create Sticky Notes on your desktop - keep reminders, to-do lists, and phone numbers close at hand
- Set reminders on specific notes - with the special reminder function that pops up notes at specified dates and times
- Export notes in JPEG format - share notes easily
