

GPEN200N

Mobile Digital Scribe

Mobile Digital Scribe is the first device ever to capture natural handwriting from any surface, and store it in the receiver for future use. Based on a revolutionary electronic pen that uses ordinary ink refill to write on any paper, the Mobile Digital Scribe stores handwritten notes, memos or drawings for easy upload to any computer at your convenience. No special digital notepad is required.

Additionally, if the Mobile Digital Scribe is connected to a computer, handwritten text and drawings are displayed directly on the computer screen.

- The first device ever to capture natural handwriting from any surface, and store it in the receiver for future use
- No special notepad, digital pad, or ink is required
- Included handwriting recognition software (OCR software) turns your handwriting into digital text
- Full editing capabilities allow you to easily modify your notes
- Export notes via JPEG format and share notes with other users via E-mail or Instant Messaging
- Write on any paper up to Letter or A4 size
- 12 Language OCR Support (English, Spanish, Traditional/Simplified Chinese, French, Dutch, Italian, German, Portuguese, Swedish, Korean, Japanese, and Russian)
- Great for Legal and Medical professionals
- Students don't need to carry their laptops to class, write on paper and upload your notes when you are back in the comfort of your room
