Mobile Digital Scribe

Mobile Digital Scribe is the first device ever to capture natural handwriting from any paper, and store it in the receiver for future use. Based on a revolutionary electronic pen that uses ordinary ink refill to write on any paper, the Mobile Digital Scribe stores handwritten notes, memos or drawings for easy upload to any computer at your convenience. No special paper or digital pad is required.

Additionally, when the Mobile Digital Scribe is connected to a computer, handwritten text and drawings are displayed directly on the computer screen. With the included stylus, the pen can also act as a mouse working on any surface for accurate drawing and natural movement control.

- Capture natural handwriting from any paper, and store it in the receiver for future use
- No special paper, digital pad, or ink refills is required
- Write on any paper up to Letter (8 ½ x 11") or A4 size
- Regular pen size for true handwriting pleasure
- Full editing capabilities offer easy modifications
- Export notes via text or JPEG format
- Included handwriting recognition software (OCR software) turns your handwriting into digital text
- 12 languages OCR supported (English, Spanish, Simplified Chinese, Traditional Chinese, Korean, French, Dutch, Italian, German, Portuguese, Swedish, and Russian)
- The pen can be used as a mouse when connected to a computer
- Compact unit with carrying case is easy to bring anywhere

Requirements

- Microsoft Windows® XP or Vista
- Minimum 128MB RAM
- 50MB available hard disk space
- Minimum 16-bit color quality
