

GTD735KIT

Thunderbolt 3 Dock Pro with Dual 4K Video Kit

- Expand your laptop by connecting up to 8 devices
- Dock and charge your laptop and connected devices
- Supports 5K & dual 4K resolutions*
- Dual 4K monitors via DisplayPort & included USB-C to HDMI cable
- 5K @60Hz resolution supported via DisplayPort port only

Thunderbolt 3 - Docking, Power, Networking, Display - With a Single Cable

Streamline your personal and professional 4K or 5K workstations with the accelerated connectivity of IOGEAR's Thunderbolt 3 Dock Pro with Dual Video Kit. Deliver up to 85W of charging power to your connected USB devices, your MacBook Pro or Thunderbolt-enabled Windows system via the included Thunderbolt 3 cable. The Docking Station Pro quickly expands your system to a fully functioning workstation with a variety of high-speed connectors and the ability to connect two high-resolution graphics monitors through a single cable.

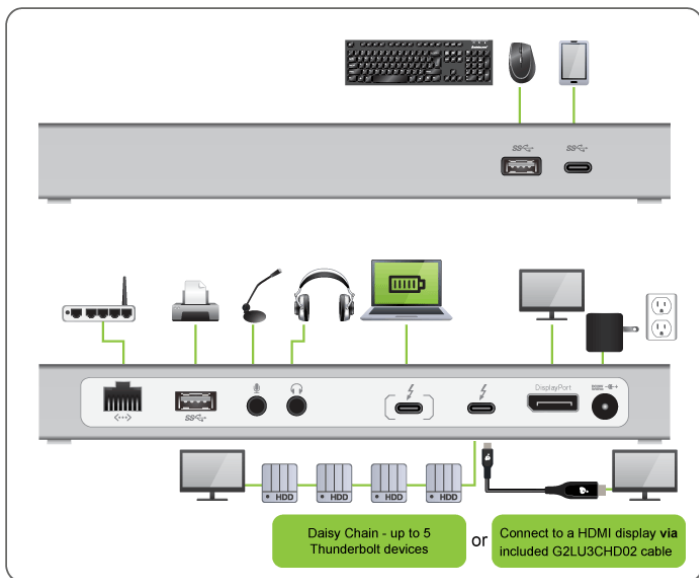

Single Cable - All-in-One Operation

Connect the included Thunderbolt 3 cable to the docking station to charge and connect up to eight (8) onboard ports. Plug in your headphones to listen to your favorite music or podcasts with the included audio/speaker jack and connect to a hardwired network via the Gigabit Ethernet port. Add one (1) DisplayPort monitor, and daisy chain up to five (5) additional Thunderbolt 3 devices such as data storage or an External Graphics Processor Unit (eGPU) through the two (2) Thunderbolt 3 ports. Connect your mobile devices to the docking station's single (1) USB 3.0 and (1) USB-C port for data sync and charging convenience.
