

GUB431CA1KIT

# 4-Port USB 2.0 Printer Switch with USB-A to USB-C adapter kit

- Manually or automatically\* print to a USB-based printer from up to 4 computers
- Or share a separate USB 2.0 device between PC & Mac without a network setup
- Software-free push-button switching option for sharing other USB devices
- Active-port LEDs indicate which computer has access to the USB device
- Switch-lock prevents others from switching device while ensuring data access consistency

## Simple Printer Sharing Without a Network

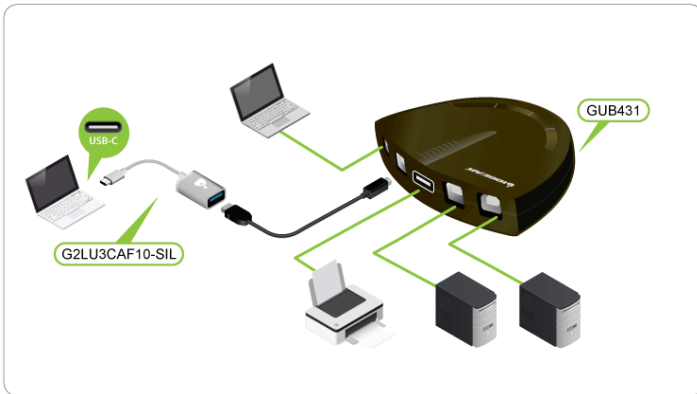

IOGEAR's 4-Port USB 2.0 Printer Switch Kit allows up to four (4) USB-A or (3) USB-A and (1) USB-C PCs or Macs to share one printer. No more plugging and unplugging between computers or fussing with wireless printer connections.

## Automatic Printing

Connect any mix of PCs or Macs and share a printer between each. Set up your automatic printing between each computer through your printer's included software. Simply submit a print job and the printer will automatically print from that computer.
