

GUC2025HD

## USB 2.0 to HDMI OR DVI External Video Card (KIT)

### USB to HDMI Adapter / USB to HDMI Video Card

The IOGEAR USB 2.0 TO HDMI or DVI External Video Card KIT instantly adds an additional high resolution HDMI or DVI display through your USB 2.0 port. Simply install the driver, plug the adapter into the USB 2.0 port and you're ready to go.

Extend your desktop across both displays allowing you to increase your productivity like never before. While reading email on one display, open attachments on the other display. Expand spreadsheets across both monitors; in graphics programs you can increase your working area by putting all your pallets on the second display.

IOGEAR's USB 2.0 TO HDMI or DVI External Video Card KIT is powered through the USB cable so no additional power supply is needed. By using USB there is no need to open the computer case. Adding a second video card to a desktop or laptop can be complicated and impossible in some cases. With the IOGEAR USB 2.0 TO HDMI or DVI External Video Adapter KIT, just plug it in.

- Easily connect additional HDMI or DVI monitors using a USB 2.0 Cable
- Enjoy resolutions of up to 1600x1200 / 1920x1080 at 32-bit color
- Support both video and audio signals\*
- Bus Powered - No external power supply needed
- No need to open cases. Great for laptops or leasing computers

- View large spreadsheets across two screens with display continuity
- Multitask more effectively without overlapping windows
- Open attachments on one screen while reading the e-mail on the other

#### Graphic Use:

- Use second display for pallets & tools

#### Data Entry Use:

- Type documents on one screen while viewing reference material on the other

\*If use more than one USB to HDMI adapter, users can only select one of the display devices for sound output

The possibilities with the IOGEAR USB 2.0 TO HDMI or DVI External Video Card KIT are endless:

#### Office Use:

#### Wall Street:

- Use a notebook for viewing multiple screens
- View charts and live data at the same time

**How does it work?**

- Install driver on to your computer / laptop
- Connect the included USB cable in the computer, then connect the other end into GUC2025H
- From GUC2025H, connect HDMI® cable to DVI adapter. Plug DVI adapter into HDTV / monitor

**Requirements**

- Windows XP, Windows Vista, Windows 7 32-/64-bit, Windows 8/8.1 32-/64-bit
- Mac OS 10.4.x, 10.5.x, 10.6.x, 10.7.x
- Available USB 2.0 port (not compatible with USB 1.x)
- Pentium 1.6 GHz processor (CPU) with 1GB of system memory
- Monitor with HDMI or DVI Connector

**Package Contents**

- 1 x USB 2.0 to HDMI External Video Card
- 1 x HDMI to DVI Adapter
- 1 x Quick Start Guide
- 1 x CD-ROM with User Guide and Installation Software
- 1 x USB 2.0 Cable
