

GUC2025HW6

USB 2.0 to HDMI Adapter Multi-Language Version

Add an HDMI video card to your PC and get HD quality on your flat panel from your computer's USB port

The IOGEAR USB 2.0 to HDMI Adapter instantly enables you to connect a high resolution HDMI display through your USB 2.0 port on your computer. Extend your desktop to watch HD quality videos on your flat panel TV or use it to increase productivity in your office environment with this HDMI video card.

- Easily connect additional HDMI monitors using a USB 2.0 cable
- Enjoy resolutions of up to 1600x1200 / 1920x1080 at 32-bit color
- Support both video and audio signals*
- Bus Powered - No external power supply needed

- No need to open cases- Great for laptops or leasing computers

*If use more than one USB to HD adapter, users can only select one of the display devices for sound output

The possibilities with the IOGEAR HD display adapter are endless:

Office Use:

View large spreadsheets across two screens with display continuity
Multitask more effectively without overlapping windows
Open attachments on one screen while reading the e-mail on the other
Graphic Use:

Use second display for pallets & tools
Data Entry Use:

Type documents on one screen while viewing reference material on the other
Wall Street:

Use a notebook for viewing multiple screens
View charts and live data at the same time

How does it work?

- Install driver on to your computer /media server
- Using the USB cable (included) connect the USB cable into the computer and then connect the adapter.
