

GUC2100

USB 2.0 Fast Ethernet Adapter

Don't have an Ethernet port, or WiFi capabilities on your netbook, PC, laptop, or Mac and want to surf the Web?

Have an Ethernet port but have a slow network connection?

IOGEAR's GUC2100 USB 2.0 Fast Ethernet Adapter will help you leap over either of those hurdles and land online. This leading edge adapter will allow those with Internet challenged computers to not only connect with the World Wide Web, but also speed up existing surfing speeds using their USB 1.1 or 2.0 port!

- Bring a fast, stable Internet connection to devices without Ethernet port
- Compliant with the Standard Specification of USB 1.1 and 2.0
- Small, compact design for effortless portability
- IEEE 802.3u 100BASE-T, TX Compatible
- Turn your USB port into a 10 / 100Mbps Fast Internet Connection
- Full / High Speed USB Device with bus power capability
- Support full-duplex or half-duplex operation on Fast Ethernet
- Supports suspended mode and remote wakeup
- Ideal for gaming, accessing streaming audio, video, and other Internet connectivity needs

How does it work?

■ Plug one end of the Ethernet cable into the RJ45 port of the Ethernet Adapter and the other end of the cable into one port of the supporting hub, switch or router.

■ Connect the USB 2.0 Ethernet Adapter to a laptop, or desktop computer's USB port
