

GUD300

USB 3.0 Universal Docking Station with Power Adapter

USB 3.0 Docking Station with Power Adapter (and Dual Monitor Function)

IOGEAR'S USB 3.0 Universal Docking Station quickly and easily transforms your laptop, Ultrabook or Microsoft Surface® Pro tablet into a full-featured workstation. This universal dock is an all-in-one solution to the latest port-deficient laptops and tablets. It allows you to connect as many as 10 devices to your laptop through a single high speed USB 3.0 cable that offers speeds up to ten times faster than the previous USB 2.0 standard. With support for dual monitors, Gigabit Ethernet, 6 USB ports, plus microphone and speaker connections, the USB 3.0 Universal Docking Station connects you to all your peripherals so that you can completely mobilize your customized home office. It also comes with its own power adapter so that you can connect and power all your USB devices without a worry.

Optimal Productivity

The USB 3.0 Universal Docking Station has connections to suit virtually every application. The dock gives you HDMI and DVI connections that can support a resolution of 2560 x 1440. It also has a gigabit Ethernet port, six USB ports (two USB 3.0 and four USB 2.0), and audio input/output jacks for headsets or speakers. Now you can easily add a full-sized keyboard and mouse, external hard drives, printers, webcams, etc. to turn your laptop into a complete workstation. Although this universal dock is equipped to take advantage of USB 3.0 Super Speed technology, it is fully backwards compatible with USB 2.0 devices. And since the connections from all your peripheral devices are consolidated to your computer through a single USB 3.0 cable, disconnecting only takes removing one plug.

- Universal USB 3.0 Ultrabook / Laptop / Tablet* Docking Station
- Dual Monitor support with DVI-I and HDMI outputs
- Resolution** - HDMI: 2560x1440 single monitor only, DVI: 2048 x 1152, VGA (using supplied adapter): 1920x1200
- Integrated 2-port USB 3.0 and 4-port USB 2.0 Hub for external drives, cameras and phones
- Integrated Gigabit Ethernet port (RJ-45) - Supports 10/100/1000BASE-T
- Stereo audio with 3.5mm headphone output jack
- Microphone 3.5mm input jack

- Perfect for Workstations, Business, Home Offices and Entertainment Centers

*Windows 8 Pro tablets (Microsoft Surface™ Pro, Surface™ Pro 2, etc.)
**2560x1440 resolution requires connection via HDMI 1.4 cable and DVI output not used; maximum resolution with two monitors connected is 1920x1080 for both monitors
