USB-C™ to USB-A Hub with Ethernet Adapter

IOGEAR's HUB-C Gigalinq USB-C™ to USB-A Hub with Ethernet Adapter plugs into your laptop's USB Type-C port and turns it into three USB Type-A ports and an Ethernet port. The three SuperSpeed equipped USB Type-A ports allow you to stay connected to your legacy USB peripherals while the Ethernet port allows a hard-wired Gigabit Ethernet connection. Easily connect a mouse, external hard drive, printer, webcam, etc. for a customized workstation setup. With the extra Ethernet port, you can enjoy gigabit speeds without having to strictly rely on a wireless connection to keep you connected.

The ports support SuperSpeed data transmission rate of 5Gbps and the adapter itself is 100% plug-n-play, so it does not require any additional software of driver installation.
