# USB-C to SD/MicroSD USB-A Adapter

## USB-C to SD/MicroSD USB-A with Power Charging Pass-Thru

The USB-C Combo Hub & Card Reader expands a USB-C port to a SD and Micro SD Card Reader/Writer, two USB Type-A ports and an additional USB-C expansion port for data or power charging. This all-in-1 adapter bridges the gap between your computer and older USB technology devices. Connect smartphones and tablets, digital cameras, as well as peripherals such as printers, external hard drives and more. Combining two high-speed USB 3.0 ports with a card reader, this compact and elegant device delivers lightening-fast connectivity and file transfer capabilities. Just insert your memory cards and transfer data at 5Gbps.

## 1. USB-C Power Charging Pass-Thru

You have uboxed your new laptop and found you only have one port to use for power or peripherals. How can you connect any devices while your laptop is charging through the one USB-C port? There is no need to worry about running out of power while using the IOGEAR USB-C hub. When you plug-in your laptop's original USB-C AC charger to the USB-C port, this USB-C to SD/MIcroSD USB-A Adapter hub will use the charger as power source and provide up to 60W of power delivery to your laptop and the USB devices that are concurrently connected to the hub. When you are not charging your laptop, you can use the USB-C port to plug in any cutting edge USB-C devices like today's new smartphones and tablets to charge and transfer data.

- SD and micro SD Card Reader / Writer
- USB-C port x 1 (5Gbps)
- USB 3.0 Type-A port x 2 (5Gbps)
- Charges your laptop via USB-C charger (60W)

- Compatible with Thunderbolt 3 (USB-C)
- \* Power Delivery pass-through requires USB-C charger from your laptop. A total of up to 52.5W can be charged to the laptop after deduction of 7.5W is used by the dock.
- \*\* Pass-thru power delivered to the laptop is dependent upon the capacity of your USB-C power supply.

Ex. If your USB-C power supply is 60W, then the maximum power can be delivered to the laptop is 60W-7.5W = 52.5W.

Regardless of the capacity of your USB-C power supply, the maximum power can be delivered to your laptop is 52.5W.

#### Requirements

#### **Package Contents**

- Computer:
- USB-C port
- Windows® 7,
   Windows® 8,
   Windows® 8.1,
   Windows® 10,
- Mac OS® X 10.7+
- 1 x GUH3C84PD
- 1 x Warranty Card

### **Specifications**

Function	GUH3C84PD	Dimensions	GUH3C84PD
Upstream Port		POP Information	
USB-C	Built-in USB 3.1 G1 Type-C cable	10" Peg Hook	8
Downstream Port		6" Peg Hook	5
USB-A USB-C	2 x USB-A 3.0 (1 support BC 1.2 (1.5V) charging)  1 x USB-C for Power Delivery Pass-through or data transfer	Unit Dimensions	
		Height	7.64" (19.4cm)
		Depth	0.63" (1.63cm)
