

GUIP201

1-Port USB Sharing Hub

IOGEAR's new palm-sized USB Net ShareStation enables an external hard drive, flash drive, memory card reader, USB webcam, USB speaker, or USB Multi-Function Printer (MFP) to be shared on a network. With the versatility afforded by the USB Share Station, users can now enjoy their favorite multimedia content stored on their computer from anywhere in their home or office. A user can attach a standard USB webcam to the USB Net ShareStation as a simple and low cost security monitoring solution for their home and/or small office use. Because the unit includes Multi-Function Printer sharing, any user can print, scan, or fax from any computer in their home. The USB ShareStation also supports a USB 2.0 Hub extension, which can support up to 4 USB devices over your home or office IP network. It complies with USB 2.0 specifications, and provides users with an auto-sensing 10/100Base-T port. The print server will even automatically identify your printer make/model upon connection. When connecting IOGEAR's USB Net ShareStation to a wireless router, users can access their multimedia content and USB devices wirelessly. The UPnP technology enables quick and easy setup and configuration in a Windows Vista environment. It is a one-stop-shop for multi-functional network peripheral sharing and the number of applications is practically endless.

- Share up to 4 USB devices through your home or office network by connecting to a USB 2.0 Hub
- Wirelessly share your USB devices through your wireless router.
- Share an external hard drive, flash drive or memory card reader with multiple users over your network
- Share a USB webcam over a network
- Enjoy music stored on any networked PC with a USB speaker*
- Allows multiple users to share a Multi-Function Printer (MFP) over a network to print, scan, and fax from any networked computer
- Supported protocols: LPR/LPD, DHCP, UPnP
- Supports USB 2.0 and 1.1 devices
- Supports Windows Vista Rally Technology
- Works with any home or office Ethernet network

* Some USB devices require a direct connection for optimum performance

Requirements

Computer:

- CPU of 1.7GHz and above
- Minimum 512MB RAM
- Windows XP/Vista
- Available Ethernet port in home/office network

Support Devices:

- Printer or Multi-function printer with USB connection*
- External USB hard drive
- USB speaker*
- USB webcam*
- USB flash drive
- USB memory card reader
- USB printer
- USB scanner

Printer:

- Multi-function printer with USB connection

* Some USB devices require a direct connection for optimum performance

Package Contents

- 1 x 1-Port USB Net ShareStation
- 1 x User Manual
- 1 x Installation CD
- 1 x Warranty / Registration card
- 1 x Power adapter
- 1 x Ethernet cable

Specifications

Function	GUIP201
