4-Port USB Sharing Hub

IOGEAR's 4-port USB Sharing Hub over Network enables any USB external hard drive, USB flash drive, USB memory card reader, USB webcam, USB speaker, or USB multi-function printer (MFP) to be shared on a network among different users. With the versatility afforded by the 4-port USB Sharing Hub over Network, users can now enjoy their favorite multimedia content stored on their computer from anywhere in their home or office. A user can attach a standard USB webcam to the 4-port USB Sharing Hub over Network as a simple and low cost security monitoring solution for the home/small office use.

Because the unit includes multi-function printer sharing, any user can print, scan, or fax from any computer in their home. The 4-port USB Sharing Hub over Network also supports a USB 2.0 hub extension, which can support 4 USB devices over your home or office IP network. It complies with USB 2.0 specifications, and provides users with an auto-sensing 10/100Base-T port. The print server will even automatically identify your printer make/model upon connection.

When connecting IOGEAR's 4-port USB Sharing Hub over Network to a wireless router, users can access their multimedia content and USB devices wirelessly. It is a one-stop-shop for multi-functional network peripheral sharing with a number of applications that are practically endless.

- Share up to 4 USB devices through your home or office network
- Wirelessly* access USB devices without the USB cable clutter
- A simple way for multiple users to share USB devices
- Works with all wired and wireless routers; supported protocols: LPR/LPD, DHCP, UPnP, WSD
- Supports USB 2.0 and USB 1.1 devices
- Supports Windows Vista Rally Technologies to simplify the setup and maintenance of network-connected devices

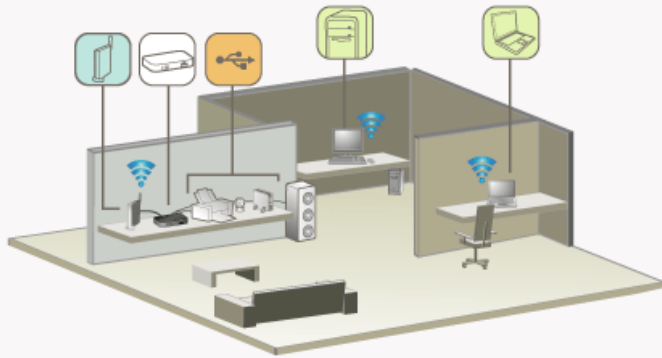

*Requires connection to a wireless router

**Supports USB 1.1 webcam

How does it work?

- Connect your external hard drive, USB speakers, USB webcam*, and multi-function printer to the Net ShareStation
- Connect the Net ShareStation to your existing wireless or wired router (NOT included)
- Easily share USB devices with multiple network users in different locations

*Supports USB 1.1 webcam

Requirements

Package Contents

Computer:

- CPU of 1.7GHz and above
- Minimum 512MB RAM
- Windows XP/Vista/Win7
- Available Ethernet port in home/office network

- 1 x 4-Port USB Sharing Hub over Network
- 1 x Quick Start Guide
- 1 x Installation CD
- 1 x Warranty / Registration card
- 1 x Power Adapter
- 1 x Ethernet Cable

Support Devices:

- Printer or Multi-function printer with USB connection*
- External USB hard drive
- USB speaker*
- USB webcam*
- USB flash drive
- USB memory card reader
- USB printer
- USB scanner

Printer:

- Multi-function printer with USB connection

* Some USB devices require a direct connection for optimum performance

Specifications

Function	GUIP204
Operating System Support	Windows 2000/XP/Vista
