

GUML01-RG

DuoLinq™ 2-in-1 Charge & Sync Cable - Rose Gold

Charge and sync your Android and iOS devices with just one cable. To charge your Apple devices, simply snap on the attached Lightning connector adapter to the Micro USB connector and you're ready to go.

Rose Gold Lightning & Micro USB 2-in-1 Cable

Match your Rose Gold devices with this stylish 2-in-1 Lightning & Micro USB Rose Gold cable. Charge and sync your Android and iOS devices with just one cable. With a multitude of mobile platforms available, we now have several types and brands of mobile devices that we use simultaneously. This means that different charging cables are often needed between different mobile devices. With this in mind, IOGEAR's DuoLinq™ design creates a single charging cable that allows compatibility with most mobile devices.

The premium cable features a Lightning connector and Micro USB connector on one end and a reversible USB Type-A connector on the other. Simply plug the reversible USB end directly into any USB port to charge and sync Apple Lightning devices and Micro USB devices rapidly and safely. These tangle-proof cables feature a top-grade braided nylon fiber sleeve and anodized aluminum connectors for added style and maximum durability. Available in Rose Gold, [Gold](#), [Silver](#), [Space Gray](#).

One Cable to Charge Them All

Eliminate the need to carry two separate charging cables by integrating two connectors into a single cable. The Micro USB connector is used for Android®, Windows® and BlackBerry® devices, while the Lightning connector is compatible with Apple iOS devices. To charge iOS devices, simply snap on the attached Lightning connector adapter to the Micro USB connector and you're ready to go. To charge Android, Windows, or BlackBerry devices, remove the Lightning connector adapter and plug in the Micro USB connector directly into your device. The DuoLinq features compact, anodized aluminum connectors that can fit the majority of phone cases, so it can be used with devices without removing the case.

- Our Reversible USB connector eliminates the frustration of plugging the USB on the wrong side
- Compatible with all Micro USB devices
- Includes Lightning adapter to charge and sync iOS devices
- Sturdy and tangle-free design - suited with a braided nylon-fiber cable jacket
- Small, anodized aluminum connectors that can fit most smartphone/tablet cases

Requirements
