

GUMU01KIT6

Charge & Sync Cable - 3.3ft (1m) USB to Micro USB Connector (6 Pack)

Charge & Sync - Micro USB Charge Cables (6 Pack)

IOGEAR's super flexible Charge & Sync cables meet or exceed OEM cable standards for performance without being stiff or difficult to coil. High-grade materials enable thinner construction, and make for a non-bulky, tangle-free cable. These premium cables simultaneously charge and sync all devices equipped with the USB Micro-b port and feature a stain-resistant cable jacket and specially designed strain relief connectors to maximize durability. Ideal for items such as smartphones, tablets, cameras, video game controllers, e-readers (Kindle, NOOK, etc.), GPS units and connecting PC peripherals such as printers, scanners, hard drives and more.

When you are on the go, keeping all your essential devices connected and powered up to meet your daily demands can be tricky. With this convenient 6 pack, you can keep a Charge & Sync cable at home, in the car, office, plugged into your computer, with you on the go, and still have one to keep as a handy spare for emergencies! With this multi-pack, you can plug one into each of your go to spots so that they are always ready for use. Perfect for the multitasking business professional or student.

Micro USB is now the international standard for charging and data exchange for most handheld mobile devices that do not have an Apple logo.
