

GUMU03

## Charge & Sync Cable, 9.8ft (3m) - USB to Micro USB Cable

### Micro USB Charge Cables

IOGEAR's super flexible Charge n' Sync cables meet or exceed OEM cable standards for performance without being stiff or difficult to coil. High-grade materials enable thinner construction, and make for a non-bulky, tangle-free cable. Great for items such as smartphones, tablets, cameras, video game controllers, e-readers (Kindle, NOOK, etc.) and GPS units. Micro USB is now the international standard for charging and data exchange for most handheld mobile devices that do not have an Apple logo. Compatible Android smartphones and tablets: • Galaxy S series smartphones • Galaxy Tab 3/4 • Google Nexus devices • HTC devices

### Charge your PS4 Controller from 10ft Away

There's nothing worse than having your controller run out of juice in the middle of a gaming session. With IOGEAR's Charge n' Sync premium cables you can add up to 10 feet of additional charging cable between you and your console. Now you can enjoy lengthy gaming sessions while sitting back comfortably on the couch or playing from across the room while simultaneously charging your controller. Take back your freedom of movement while you play for as long as you want without ever having to worry about dead controllers.

- Compatible with Micro USB devices
- Great for smartphones, tablets, cameras, video game controllers, e-readers (Kindle, NOOK, etc.) and GPS units.
- Galaxy S series smartphones, Galaxy Tab 3/4, Google Nexus devices, HTC devices
