IOGEAR®

GUS432CA1KIT

2x4 USB 3.0 Peripheral Sharing Switch with USB-C Adapter

- Share 4 separate USB 3.0 devices between 2 computers
- Connect a USB-C PC or Mac via the included USB-A to USB-C adapter cable.
- Easy push-button switching between computers
- Supports data transfer rates of up to 5 Gbps
- LED indicates which computer is active

Share USB 3.0 Peripherals With Two Computers

IOGEAR's 4x2 USB 3.0 Peripheral Sharing Switch is a convenient way to share four (4) USB devices between two (2) USB-A or USB-C computers. Share a keyboard, mouse, printer, portable hard drive and more with simple push-button switching.

Connect USB-C Computers to Existing Devices

Share your existing USB-A peripheral devices with the newest USB-C-enabled laptop or tablet with the included USB-A to USB-C adapter cable.

Save Space and Expense

The Peripheral Sharing Switch is perfect for small office, and home office users since it not only saves users from purchasing duplicate peripherals, it also creates a space saving, productive work environment.

- Share 4 separate USB 3.0 devices between 2 computers
- Connect a USB-C PC or Mac via the included USB-A to USB-C adapter cable.
- Easy push-button switching between computers
- Supports data transfer rates of up to 5 Gbps

- LED indicates which computer is active
- Features over-current protection
- Connect or remove computers via hot-plugging without powering down
- Connect optional Micro USB cable to support additional power (up to 2.5W via USB 2.0 Port, up to 4.5W via USB 3.0 Port)
