

GUV303

UpStream™ Pro Video Production Switch

- Capture, preview, monitor live video, record, edit & stream with a single device
- Easily create pro-quality video content and dual livestream it to a global audience
- 6-In-1 Video production solution simplifies your workflow, reducing hardware needs
- Built-in 1080p/4K video capture, switch, splitter, converter, streaming encoder & audio mixer
- Livestream or pre-record content such as training & education, virtual events, corp. communications

Professional-Quality Livestreaming Simplified

The UpStream™ Pro Video Production Switch is a 6-in-1 solution that combines and simplifies the hardware and software tools you need to livestream like a pro! Along with UpStream Studio™, a robust iPad app, you can control, preview and monitor live video, record, edit and add a variety of professional effects that enhance your program content.

UpStream Pro is perfect for individuals, education, non-profits, startups and enterprise businesses alike, opening a whole new world of virtual communication. Livestream or pre-record and stream any relevant content such as training and educational videos, fundraising events, corporate communications, or virtual conferences to a growing number of platforms.

Whether you're an aspiring YouTuber, an up and coming Twitch streamer or an experienced content creator, you too can stream like a pro with UpStream Pro.

- Capture, preview, monitor live video, record, edit & stream with a single device
- Easily create pro-quality video content and dual livestream it to a global audience
- 6-In-1 Video production solution simplifies your workflow, reducing hardware needs
- Built-in 1080p/4K video capture, switch, splitter, converter, streaming encoder & audio mixer
- Livestream or pre-record content such as training & education, virtual events, corp. communications
- Connect, capture up to 3 HDMI sources with 4K & 1080p cameras; 1080p output
- No PC required: Powerful hardware & intuitive app enhance program content fast & easy
- UpStream Studio™ App for iPad*: Control, preview, edit in real time, add pro effects, adjust layout
- Pro-level effects include 8-pre-set scenes, customized overlays, & smooth transitions
- Adjust video layout options to Full Screen, Picture-by-Picture (PBP) or Picture-in-Picture (PIP)
- Features full-screen program preview
- Quick Switch mode: Instant scene transitions when pressing any of the 8 preset scene buttons
- Compact design easily fits on a desk or set table out of camera view
- Large backlit push buttons put control at your fingertips in low lighting and while livestreaming
- Stream-Ready: Livestream or record content directly to any two online video services
- Compatible with CDN platforms & online video services like YouTube, Facebook, Vimeo, Twitch
- Portable: Single lightweight design eliminates other bulky equipment, simplifying location changes
- Save rough footage or final cut video by connecting an external drive to the USB-A port**
- Optimized fanless thermal air flow system offers a quiet operation

* Proprietary connector is provided for use with iPad Pro (3rd gen) with iOS 11 or later. The following iPads with iOS 11 or later will require the use of a Lighting to USB 3 Adapter from Apple: iPad Pro (1st gen), iPad Pro (2nd gen), iPad (5th gen), iPad (6th gen), iPad Air (3rd gen), iPad Mini (5th gen)

**Requires firmware update

Requirements

Package Contents

- iPad Pro (3rd gen) with iOS 11 or later

- 1x GU303
- 1x USB-A to USB-C Cables (Custom)
- 1x USB-A to USB-A Cables (Custom)
- 1x AC Power Cable
- 1x QSG
- 1x Warranty card

The following iPad with iOS 11 or later (Additional Apple Lightning USB 3 Camera Adapter is required):

- iPad Pro (1st & 2nd gen)
- iPad (5th, 6th & 7th gen)
- iPad Air (3rd gen)
- iPad Mini (5th gen)
